## CAREER OBJECTIVE

**Software Developer** with hands-on experience in full-stack development, specializing in modern web technologies including Next.js, TypeScript, Java, and Spring Boot. Proven ability to develop scalable applications with a strong focus on user experience optimization. Seeking opportunities to contribute technical expertise while advancing skills in a collaborative, fast-paced environment.

## EDUCATION

### B E in Computer Science and Engineering

**JSS Academy of Technical Education, Bengaluru**

📅 2020 - 2024 📍 Bengaluru, Karnataka

GPA

8.50 / 10

### Pre-University course

**Narayan P U College**

📅 2019 - 2020 📍 Kolar, Karnataka

Percentage

96 / 100

## EXPERIENCE

### Junior Software Developer

**ChampionXI**

📅 12/2024 - Present 📍 Remote

- Led the frontend development of ChampionXI, a future-ready fantasy app, utilizing React, Next.js, TypeScript, and Tailwind CSS, achieving 30% UI performance improvement.
- Built reusable and scalable UI components, shortening development cycles by 25% while preserving a cohesive user experience.
- Currently working on the backend, utilizing Java, Spring Boot, and PostgreSQL to build secure and efficient APIs, aiming to enhance system performance and scalability.
- Working with cross-functional teams to deploy features that contribute to business objectives, driving a 20% increase in user engagement.

### Web Development Intern

**PrinstonSMART.com**

📅 11/2022 - 01/2023 📍 Bengaluru, Karnataka

- Developed dynamic, responsive web applications using HTML, CSS, JavaScript, and React.
- Ensured the timely delivery of high-quality web solutions by adhering to Agile methodologies and industry best practices.
- Implemented debugging strategies to identify and resolve performance issues, improving application efficiency.

## PROJECTS

### Decentralized Loan Application using Blockchain

📅 11/2023 - 03/2024 📍 Bengaluru, Karnataka

- The project leverages digital ownership management and proposes a system of Peer- to-Peer loan backed by digital Mortgages.
- DiGiLend -- built on Ethereum is a web platform that connects lenders to borrowers directly.
- Utilized React for the frontend and Node.js and Ethereum for Backend.

### Student Management System

📅 09/2022 - 12/2022 📍 Bengaluru, Karnataka

- **Multi-role Application:** Developed a desktop application supporting three distinct user roles - Administrator, Faculty, and Student.
- **Educational Focus:** Created a comprehensive tool designed to enhance institutional operations and improve student services.
- **Technology Stack:** Built using Java and Java Swing for the frontend interface with MySQL for backend database management.

## SKILLS

---

### Tools/Technologies

Java

Spring Boot

MySQL

PostgreSQL

JavaScript

React

Next.js

Tailwind CSS

---

### Other Skills

DBMS

Operating Systems

Data Structures

JDBC

Git/Github

---

## TRAINING / COURSES

---

### Web development Internship

Intensive 1-Month Program, Tequed labs

### Java Programming Course

From Udemy

### JavaScript for Beginners

From Simplilearn

## LANGUAGES

---

English

Kannada

Hindi/Urdu
